

# Finally, an affordable liability Insurance solution for IT Contractors!

APCC

A major challenge confronting IT Contractors is the issue of obtaining and maintaining the appropriate liability insurance coverage. APCC members now have the ability to secure comprehensive coverage as well as access to rates that are often much less than traditional insurance markets.

*Members of APCC have access to the Professional liability / Business Insurance Program courtesy of LMS PROLINK.*

## *Reasons to consider this program include:*

- ✓ Being self-employed, insurance is considered the best way to protect you and your family from an unforeseen lawsuit.
- ✓ The insurance costs are a tax deductible expense (further minimizing the already competitive group rate available to APCC members).
- ✓ The APCC program is designed to meet the business requirements of independent contractors.

This program is administered by LMS PROLINK and underwritten by ENCON Group Inc.

To learn more about the benefits of the APCC program please contact our Staffing expert:
